

## The confidential solution for airman medical certification

Unlike FAA Medical Examiners or pilot advocate groups, Pilot Medical Solutions is exclusively dedicated to providing confidential support to secure & maintain FAA medical certification.

Pilot Medical Solutions is the only service which collaborates with private physicians to produce documentation required by the FAA.

Other services simply cite the FAA's requirements, Pilot Medical Solutions helps you comply with them.

## A PROVEN PROCESS

*Only Pilot Medical Solutions provides personalized pro-active FAA medical support.*

FAA medical certification can be a heavily bureaucratic process. Without experienced, hands-on aeromedical management, even the simplest issue may unnecessarily delay approval.

Pilot Medical Solutions' case managers work directly with your private physicians and the FAA to expeditiously resolve complex aeromedical issues and prevent the loss of your medical.

Pilot Medical Solutions pioneered this hands-on approach and remains the only source for this level of support.

Private physician specialists receive unlimited consultations with our staff, a checklist and sample documentation outlining FAA protocols and criteria for certification. Pilot Medical Solutions assures all essential records are obtained. A distinctive packet is submitted directly to the FAA after all records are reviewed for quality and completeness.

Certification is maintained with continual medical record management. This segment of our service assures timely medical certificate renewal and prevents the typical lapse in certification when the FAA requires ongoing documentation.
